### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gilberto Villacorta on September 26, 2005.

The application has been amended as follows:

- a.) In claim 152, line 3, after "planar", inserted "nonporous".
- b.) In claim 164, line 3, after "planar", inserted "nonporous".
- c.) Cancelled claims 156 and 168.

### ***Conclusion***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Leary et al (Proc. Natl. Acad. Sci. (1983) 80:4045-4049) discloses a dot blot nitrocellulose matrix where each dot contains DNA and has a defined perimeter separating each dot. However, the nitrocellulose matrix in Leary et al is not considered a "planar nonporous surface" as in the instant invention.
